

ENJOY, NEW KIX!

~ December 5, 2023 Opening of the new international area ~

✈️ Renovation features

✈️ Renovation schedule

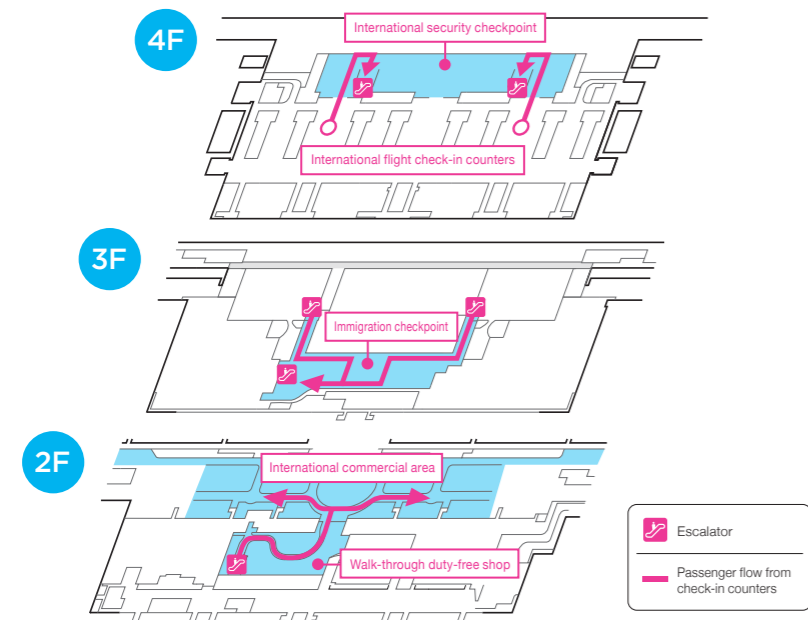

Expanded commercial area!

After the walk-through duty-free shop, which is larger than any international airport in Japan, you will reach the four "Mood" areas around the central plaza area. The shops and restaurants are arranged in line with each "Mood," and customers can choose the area you go next according to your mood. In addition, the immigration, which was previously located in north and south, will be consolidated into the central area.

Future plan

Kansai International Airport is currently under renovation toward the grand opening in spring 2025 as well as the addition of new north and south shopping and dining facilities in the new international departure area in fall 2026. The renovation aims to increase capacity by expanding the security checkpoint area and renovating the lounge. Please enjoy Kansai International Airport as it continues to evolve as a gateway to Kansai!

✈️ Map of the new international area

New line of flow for international departures

Security check two hours before departure is recommended to fully enjoy the new international departure area!

- 4F Security checkpoint**
Smart lanes and E-gates to reduce waiting time.
- 3F Immigration**
The immigration, which was on the north and south, was centralized. The new checkpoint features a Japanese-style design.
- 2F Commercial area**
Passengers can enjoy this area with 27 stores until right before you board the aircraft! Have a happy shopping experience and try delicious foods!
- To gates**

*This perspective is for illustration purpose. The actual design will be finalized during the design process.

Expanded international departure area!

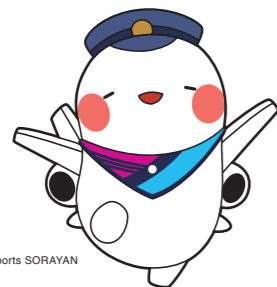

Kansai International Airport
Terminal 1 New International Area

MAP-10 Largest walk-through duty-free shop in Japanese international airports.

KIX DUTY FREE

This walk-through core duty-free shop boasts an area of approximately 2,500m². It offers a wide range of cosmetics, perfumes, alcohol, tobacco products, and well-known souvenir sweets made in Japan, including brands opening their first-ever airport duty-free shops in Japan. There is also an area for sampling alcoholic beverages and heated tobacco products.

Smooth shopping experience

We recommend you to pre-order online for the same-day pickup of products at the dedicated pick-up counter. We provide a smooth shopping experience, including the introduction of a system for ordering popular confectionery via a dedicated terminal inside the store.

Pre-order available here!
